TIME SCHEDULE AND PROGRAMME

With the beginning of spring, every year, the phase of inner growth ends and the visible rebirth begins. The plants show themselves in all their beauty, made of bright colours and heady fragrances. Also awaken the minds and the desire to show to all the work done in the autumn and winter months.

The organic district amplifies all this and, especially in a pandemic period, the desire to compare each other and exchange positive energies becomes great. This is what we will do on this spring day, through on-line meetings, debates, conferences and exchange of experiences between the protagonists of the organic districts.

KICK-OFF MEETING EDUC-ECO-REGIONS

Erasmus+ Project "Foster the ecological transition of territories and communities through innovative training"

9.30 – 11.00 CET

The partners of EducEcoRegions project, with the Cilento Bio-District as applicant, will meet to discuss how to realize the Report on the organic districts in Europe and the Tool Kit (book + film + e-learning) to teach what it is, how an organic district is constituted and managed. **The results of the meeting (open only to partners) will be set out in the public conference in the afternoon.**

MEETING OF THE PROJECT "BIO-REGIÕES AN INTEGRATED STRATEGY FOR THE DEVELOPMENT OF RURAL TERRITORIES"

11.30 - 13 CET

Between 2018 and 2020 the Cilento Bio-District and IN.N.E.R. attended in Portugal in the creation of the BIO-REGIÕES, which become part of the international network IN.N.E.R. The Portuguese Rural Network has financed a Project for the definition of Portuguese guidelines. Today the partners of the Project will introduce to us the preliminary results and continue the exchange of experiences with Cilento.

NEW TOOLS TO SUPPORT THE CREATION AND INTEGRATED MANAGEMENT OF ORGANIC DISTRICTS

16 - 18 CET

The organic districts are now widespread in all five continents. To realize the global ecological transition, however, it is necessary to develop new organic local food Systems that follow common guidelines and constitute that critical mass required for the application of change. The international experts of organic districts will talk about the new tools developed to support the creation and integrated management of organic districts.

KICK-OFF MEETING EDUC-ECO-REGIONS PROJECT

Erasmus+ Project “Foster the ecological transition of territories and communities through innovative training”

The kick-off meeting of the project will have the task to clearly define all the activities to be carried out by the partners, the administrative issues, the production of the Report on the organic districts in Europe (Output O1), to organize participation in project activities of all other people planned by the project (teachers, trainers of agricultural training centres, stakeholders of rural areas, farmers, consumers, local administrators, entrepreneurs, technicians). Will also be defined the publication on organic districts (book) that will include the results of the products O1 and O2/A1.

The kick-off meeting will be organized within three working days:

15th of April, definition of project activities and role partners, progress O1/A1.

Four presentations are planned:

- Salvatore BASILE, Cilento Bio-district, Italy, Investigation on organic districts in Italy
- Lamia LATIRI-OTTHOFFER, Bergerie Nationale, France, Investigation on organic districts in France
- Jaime FERREIRA, AGROBIO, Portugal, Investigation on organic districts in Portugal
- Aina CALAFAT ROGERS, SEAE, Spain, Investigation on organic districts in Spain

16th April, debate on how to valorise the inputs from the first working day (meetings and public conference), realization of the organic district publication (book), organization of training activity in Portugal (June 2021) and the second meeting of Project partners in Spain (November 2021). Planning of the dates and places for all other international meetings (meetings between partners, training, dissemination).

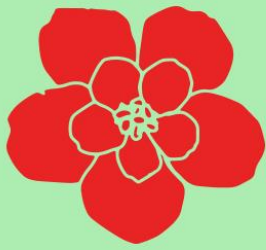

17th April, working day dedicated at bilateral meetings through Cilento Bio-District (Applicant) and the other Project partners. The aim is to remove any doubts about the activities to be carried out and their implementation times. It will be also provided the clarification on the administrative aspects and the regular reporting to be carried out.
