“The state of affairs is not good and too many children lack healthy, nutritious and safe food”

# Action now!

What we all will bring of knowledge and experience, enables us to give every child during their school day enough, healthy, nutritious and safe food.

# "Diet for a Green Planet"

As our common concept

It takes into account different sustainability aspects:

- Climate
- Health
- Biodiversity, soil fertility, clean lakes and oceans
- Land use

A global concept adjustable to local conditions

# International Committee on Organic School Meals & Public Procurement

With representatives from New Taipei  
City, Korea, Japan, Tanzania, Argentina,  
Italy, France and Portugal and Sweden
